

The Patagonia SYNUCLEIN WORKSHOP 2025

Villa La Angostura, Neuquén, Argentina | 17-19th NOVEMBER 2025

The purpose of the workshop is **to bring together clinicians and established investigators in basic and translational neurodegeneration** to discuss and expand this exciting field.

The **scientific program** includes lectures on the structure, physiology and pathology of the protein alpha-synuclein, as well as on the development of therapies and biomarkers for alpha-synucleinopathies.

There will be talks by the **top international experts in the field** as well as in-depth discussions during panel sessions. There will be opportunities for **promoted talks** and **poster presentations** of your work.

The workshop will provide a perfect opportunity to discuss the latest developments in the field from basic science to translational and clinical studies. The event will also be a forum for **PhD students and postdocs** to meet and network with established investigators.

Speakers:

Armin Giese

(Germany)

Bert de Groot

(Germany)

Christian Griesinger

(Germany)

Claudio O. Fernández Outón

(Argentina)

Debora Foguel

(Brazil)

Emilia M. Gatto

(Argentina)

Gabriela A. Salvador

(Argentina)

Juan E. Ferrario

(Argentina)

Laura Parkkinen

(United Kingdom)

Maria Grazia Spillantini

(United Kingdom)

Michel Goedert (TBC)

(United Kingdom)

Nadia Stefanova (TBC)

(Austria)

Nicolas A. Rey

(Brazil)

Oscar S. Gershanik

(Argentina)

Pernilla Wittung-Stafshede

(Sweden)

Tiago F. Outeiro

(Germany)

René Vidal

(Chile)
